FLUID VACUUMS

- Lightweight designed pneumatic vacuum with a 5-gallon container to replace expensive absorbents in the workplace
- Uses 11 SCFM of compressed air at 80 PSI generating a lift of 10" Hg vacuum
- A minimum 4 HP compressor is recommended
- Will pick-up any fluid no matter its viscosity
- Can be used with liquids whose pH readings are between 2.5 and 12 (i.e. oily waste, water, non-chlorinated organic solvents, dilute acids, coolants, cleaners etc.)
- Not to be used with highly flammable or volatile liquids such as gasoline, alcohol, kerosene, mineral spirits or any similar liquid with a low flash point

Includes: 22-gauge steel canister with double phenol epoxy blend lining, a PVC body, brass nozzle vacuum generator that requires no maintenance, hose fittings, wand, wall bracket and spill station placard
